

ZUKO HYBRID

ZUKO HYBRID Conference Phone

ZUKO Hybrid conference phone is powered by the international advanced Siren®Audio processing technology which makes conference calls that sound as natural as you are in the room itself irrespective of your location.

The **ZUKO Hybrid** is designed to be suitable for all types of conference rooms and boardrooms.

The Zuko Hybrid comes in two variants as per the customers requirement, USB + IP.

The ZUKO Hybrid offers a plug-a-play connectivity using an analogue telephony or via a SIP license using a IP telephony and a power outlet ensuring spontaneous conference involving one or more parties.

It comes with an unidirectional in-built microphones with optional expansion features for optimal audio coverage and can be used together with any of the STRIDER LABS systems for high quality Web and Video conferences.

The innovative design of the ZUKO Hybrid is very classic and elegant. It also blends in well with all the other equipment of the room.
