

## SMART COLLABORATION ASSISTANT

### Strider Labs Smart Collaboration Assistant (SCA)

Strider Labs Smart Collaboration Assistant (SCA) is the only answer to the ever-evolving conference rooms of the world. Traditionally every time there is an upgrade in technology or a change in the way organisations want to work, people had to revisit workspace designs and communication solutions in order to address the problems impacting the performance.

SMART COLLABORATION ASSISTANT (SCA) is both platform and service-agnostic giving you the freedom to choose your preferred equipment vendor or cloud service provider. We made it affordable, simple to install, and both easy to use and maintain. Time to move up to the next-generation of collaboration systems.

The SCA is available in two editions.

Smart Collaboration Assistant-Premium is the only device today that offers a true multi cloud collaboration experience giving the customer an option to choose between multiple cloud conferencing vendors.

Smart Collaboration Assistant ZOOM/Teams/Lifesize Edition on the other hand is made specific to the choice of the software that the customer wants to have as his preferred choice of enterprise communication platform. These optimized solutions provide the customers the most out of their cloud conferencing experience.

- **Platform and service-agnostic:** Choose as many cloud conference solution you want to have\*
- **Powered by Windows 10:** All the UC application used by your enterprise can be used.
- **Connect to any Platform:** A single hardware connecting to your choice of cloud applications.
- **Greater Interoperability:** Provides IT teams the level of security, management and control they require.
- **Better Meeting Experience:** No need to prepare for a meeting for hours, walk in and join the meeting of your choice.
- **Choice of SCA:** Choose between the Premium Edition or Cloud Edition as per your enterprise needs.
